
AHMED ABDELRAOUF ELSEIDY, PMP CERTIFIED

Civil Project Engineer

Phone: [+966505472166](tel:+966505472166) | Email: ahmedraoof815@gmail.com

Location: Al Yarmouk, Riyadh, Saudi Arabia.

Date of Birth: 1st March 1993 | Status: Married | Iqama: Transferable

Professional Objective

Detail-oriented Civil Engineer with 10 years of hands-on experience in site supervision, structural execution, technical office coordination, and finishing works. Proven ability to deliver high-quality construction projects in Saudi Arabia, UAE, and Egypt. Seeking to leverage technical knowledge and leadership skills to manage large-scale infrastructure and residential developments efficiently.

Experience

UCC (Ur bacon Contracting Company) – Riyadh, Saudi Arabia

Project Engineer

Project: The Chedi Hotel Project, Al Diriyah (5-Star Hotels)

Nov 2025 to up to now

- Managed full construction phases from structural works (concrete, slabs) to interior finishing.
- Coordinated between contractors, suppliers, and site teams to meet project milestones efficiently
- Implemented quality control measures to ensure compliance with 5-star hotel standards.
- Assisted in project planning, scheduling, and progress reporting for seamless workflow.
- Monitored site safety, material usage, and manpower allocation to optimize project delivery

BCC (Building Construction Company) – Riyadh, Saudi Arabia

Senior Site Engineer

Project: EWAN SEDRA-03 75 Villas

Nov 2023 – Non 2025

- Guide a team to complete over 75 Turnkey Villa, enhancing productivity through effective leadership and mentorship.
- Enhanced team skills by conducting over technical training sessions annually, staying ahead of industry advancements.
- Improved quality standards, resulting decrease in issues by conducting regular inspections and audits.
- Boosted project standards achievement by identifying and resolving issues through systematic inspections and engagement.
- Cultivated a safety-first culture, reducing accidents through rigorous enforcement of safety protocols and regulations.
- Optimized resource use, resulting in reduction in downtime and maximizing team efficiency.
- Addressed technical challenges proactively, reducing project delays and enhancing issue resolution speed.

Masri Engineering & Contracting Company (MEC) – Abu Dhabi, UAE

Senior Site Engineer

Projects:

1-Al-Falah Plaza Residential Complex

2-Bain Al-Jersian Co-operative Society

Dec 2018 – Nov 2022

- Planned and supervised day-to-day site activities to meet project timelines and quality standards.
- Led execution teams, resolving on-site challenges and coordinating with design engineers.
- Ensured compliance with HSE protocols, quality benchmarks, and architectural details.
- Performed quantity take-offs and verified subcontractor invoices.
- Liaised with authorities for approvals, permits, and inspections.
- Assisted technical office team in preparing RFI, submittals, and as-built drawings.

Talaat Mostafa Group (TMG) – Egypt

Site Engineer

Project: New Al-Alameen City

Jun 2016 – Oct 2018

- Executed reinforced concrete structures and ensured correct implementation from foundation to roof.
 - Reviewed structural and architectural drawings and coordinated with consultants.
 - Supervised civil work crews and tracked material usage on-site.
 - Monitored progress schedules, updated project timelines, and reported issues to the Project Manager.
 - Supported the Technical Office in submittal preparation and drawing verification.
 - Implemented daily safety inspections and maintained site documentation.
-

Education

Bachelor of Civil Engineering

Faculty of Engineering, Mansoura University – Egypt

Graduation Year: 2016

Graduation Project: Construction Project Management – Grade: Excellent

Certifications & Training

- PMP Certification From PMI
 - Technical Office & Quantity Surveying
 - Implementation Supervision Course.
 - AutoCAD Professional Training
 - ICDL Certification
 - Saudi Council of Engineers – Registered Member
 - Valid Saudi Driving License
-

Soft Skills

- Leadership: Supervised multi-disciplinary teams and subcontractors across phases.
