## Objective

---

A Civil Engineer with experience in site work and quantity surveying, with proficiency in AutoCAD and Excel. I am capable of working in a team and handling work pressure. I am seeking to join a construction company to further develop my skills and contribute effectively to project execution. Available for Immediate Relocation to Saudi Arabia.

## Experience

---

- ALKWIRS FOR CONTRACTING** 7/2022 - 2/2025  
Civil Engineer Trainee / Site Supervisor
  - Assisted in supervising on-site construction activities to ensure work was executed according to drawings and specifications.
  - Monitored daily site progress and reported updates to project engineers.
  - Coordinated with contractors, subcontractors, and labor teams to maintain workflow efficiency.
  - Conducted site inspections to ensure compliance with safety regulations and quality standards.
  - Reviewed engineering drawings and resolved minor technical issues on site.
  - Participated in setting out works and verifying site measurements.
  - Assisted in quantity take-offs from drawings for concrete, steel, and finishing works.
- Mohammed Abdul Qader Contracting Works** 3/2025 - 3/2026  
Site Engineer
  - Supervised daily site activities and monitored compliance with safety procedures.
  - Inspected completed works to ensure compliance with drawings, specifications, quality, and safety standards.
  - Identified site risks and reported unsafe conditions to site management.
  - Coordinated with engineers and subcontractors to resolve on-site safety and technical issues. Prepared daily and weekly progress and safety-related reports.
  - Assisted in site documentation and corrective action follow up.

## Education

---

- Sudan University Of Science and Technology** 2022  
Bachelor of Civil Engineering  
Very Good
- Top Leaders Training Center** 2020-2022  
Buildings Services Engineering (MEP)  
Very good

## Skills

---

- AutoCad.
- Revit.
- Primavera P6.

- Microsoft Office (Excel, office, word, power point).
- Site Supervision.
- Quantity Takeoff.
- Daily Reports & Documentation.
- Quality Control on Site.

## Projects

---

- **Residential building (3 floors)**  
Monitoring daily operations, supervising workers, tracking supplies to the site, and managing worker expenses.
- **Al-Nilin Mosque (Martyr's Mosque) in the capital, Khartoum.**  
Supervising the complete restoration and maintenance work on the site, addressing structural problems, and monitoring and overseeing the progress of the work.

## Languages

---

- Arabic (Native).
- English (Very Good).

## Personal Details

---

- Nationality : Sudanese
- Passport : 09902246
- Driving Licence : Yes

## Additional Information

---

I have completed safety training courses including OSHA, IOSH Managing Safely, and ISO awareness, along with basic firefighting and fire prevention training. I also studied MEP systems and participated in designing MEP layouts using AutoCAD and Revit. I have a good understanding of site safety procedures and the ability to support and promote health and safety standards to ensure the protection of workers on construction sites.

## Key Competencies

---

- Site supervision.
- Quantity surveying.
- AutoCAD & Excel skills.
- Teamwork.
- Time management.
- Ability to work under pressure.

## Personal Skills

---

- Strong teamwork and coordination skills.
- Good communication on site.
- Problem-solving ability.
- Ability to work under pressure.
- Time management and discipline.

## Training Courses

---

- Building Services Engineering (MEP – Mechanical, Electrical, Plumbing).
- Integrated Safety Management (OSHA, IOSH, ISO).
- Plumbing and Gas Supply Systems.
- Lighting and Electrical Installation Systems.
- Air Conditioning Systems (HVAC).
- Firefighting and Alarm Systems.
- Elevators and Electromechanical Systems.
- MEP Consulting and Commissioning.
- Contracting of Building Services Systems.
- BMS, Smart and Green Buildings.
- CCTV and Low Voltage Systems.
- Project Management Fundamentals.
- Operation and Maintenance of MEP Systems.
