ABOUT ME

Motivated cybersecurity graduate with hands-on experience in web application security, vulnerability assessment, and risk analysis. Completed a practical internship at N24 Creative Agency, contributing to secure development practices and website protection. Strong interest in governance, risk, and compliance (GRC), with a commitment to continuous learning.

WORK EXPERIENCE

software | N24 - Creative Agency | Riyadh | Jan 2025-Apr 2025

- Contributed to improving the security of the Kadana website by identifying potential risks and supporting mitigation efforts. Performed vulnerability scanning and documented security findings to support development improvements. Collaborated with developers to apply security updates and align with organizational security policies. Assisted in managing website backups, data protection procedures, and enhancing site security using WordPress security plugins and access control settings.

Accounting employee | Samarkand Restaurants Company | Riyadh | 2023-2024

- Prepare and post journal entries ensuring accuracy and compliance with accounting standards
