## SUMMARY

---

I am a fresh Network Diploma graduate with knowledge in network configuration, troubleshooting, and cybersecurity. As a Cooperative Trainee at the College of Applied Technology, I gained hands-on experience in network installation, maintenance, and technical support. I am eager to apply my skills in a professional setting and contribute to improving network infrastructure.

## EXPERIENCE

---

### College of Applied Technology | Riyadh, Saudi Arabia

Cooperative Trainee | June 2024 - August 2024.

- Helped in monitoring network performance, identifying vulnerabilities, and implementing security.
- Maintained logs of network configurations, troubleshooting steps, and technical support activities.
- Supported the setup, configuration, and troubleshooting of network devices, including routers.
- Responded to IT-related issues from students and staff, diagnosing connectivity problems.

## EDUCATION

---

### Technical College of Communications and Information | Riyadh, Saudi Arabia

Diploma's Degree in Network | August 2022 - January 2025.

- Provide hands-on training in installing, maintaining, and managing network hardware and software.
- Align the curriculum with globally recognized certifications such as Cisco CCNA and CompTIA.
- Equip with a strong foundation in network design, configuration, troubleshooting, and security.
- Develop analytical and troubleshooting skills to diagnose network issues efficiently.
