(ARAMCO Approved & CBT Passed)  
SAP No: 80056113

**Mobile:** +966506829232

**Email:** [engr.hannan.masood@gmail.com](mailto:engr.hannan.masood@gmail.com)

**Location:** Khobar, Dammam, KSA

**Nationality:** Pakistani

## Objective:

To secure the position of QC Inspector Civil by utilizing my expertise in quality control and civil engineering to uphold the highest standards of construction and regulatory compliance. My goal is to contribute to your organization's success by ensuring project integrity, safety, and strict adherence to quality benchmarks. I am enthusiastic about taking on new challenges, growing within a dynamic environment, and consistently delivering outstanding quality assurance throughout project execution.

## Educational Background

- B.Sc Civil Engineering from University of Engineering & Technology Lahore, Pakistan.
- O Levels from Cambridge University UK
- Duolingo English Proficiency Test 140 out of 160

## Professional Experience

**Employer:** Heavy Engineering Industries & Shipbuilding Co. (HEISCO)

**Duration:** November 2025 – Till Now

**Project:** Debottleneck Production Facilities ABQAIQ BI-10-10303

**Designation:** QC Inspector Civil

**Employer: Al Wahab Corporation**

**Duration: December 2024 – June 2025**

**Project: Lyallpur Galleria, Canal Road, Faisalabad.**

**Designation: QC Inspector Civil**

**Responsibilities:**

- Support the Quality Manager in developing the Project Quality Plan, distribute it to the client and relevant personnel, and monitor compliance with its provisions.
- Comply with the company's quality management system and project execution procedures.
- Promptly identify and report any non-conformances to the Area Engineer and the Quality Control In-Charge, ensuring timely corrective actions and follow-up.
- Oversee all testing and inspection activities, including concrete testing and soil compaction, to ensure they are performed in accordance with approved procedures and industry standards.
- Conduct routine inspections and surveillance of civil works to verify alignment with project drawings, specifications, and quality requirements.
- Review and approve materials and equipment used on-site to confirm they meet project specifications and quality criteria.
- Prepare and maintain comprehensive inspection reports, quality assessments, and non-conformance reports for management review.
- Monitor the implementation of Quality Control Plans, ensuring all site activities adhere to approved Method Statements, Inspection and Test Plans (ITPs), and applicable standards.
- Collaborate with the construction team to resolve quality-related issues and ensure prompt implementation of corrective measures.
- Attend site meetings, including technical and safety briefings, to address quality concerns and support alignment with project goals.
- Coordinate with clients, consultants, and third-party inspectors to ensure all quality standards and documentation requirements are fulfilled.

**Employer: Al Kifah Contracting Saudi Arabia**

**Duration: August 2022 –September 2024**

**Project: Riyadh Township Sedra Phase 1 B Project**

**Designation: QC Inspector Civil**

**Responsibilities:**

- Monitor quality throughout all stages of piling foundations and building construction ensuring adherence to applicable standards and project specifications.
- Receive, inspect and approve requests for inspections (RFIs) from contractors according to approved checklists
- Recommend and implement appropriate corrective actions for quality issues, coordinating with project
- Ensure that deliverables material from contractors meet quality standards set for the project.
- Supervise and verify the quality of concrete production to ensure compliance with approved mix designs and applicable standards.
- Perform regular sampling and testing of raw materials—such as cement, aggregates, and water—to ensure they meet project requirements.
- Oversee the batching process, ensuring accurate mix proportions and consistent concrete quality throughout production.
- Maintain comprehensive records of batch production, material consumption, and test results, ensuring all documentation is precise and up to date.
- Collaborate with construction teams, engineers, and contractors to ensure the timely supply and placement of high-quality concrete.
- Review and approve contractor quality documents, including personnel, ITPs, method statements and special work procedures in accordance with engineering standards, material specifications, procedures, Schedule Q and project specification.
- Conduct routine site surveillance of civil activities and ensure to comply of approved drawings, inspection
- Inspect materials and equipment to confirm they meet Company requirements for proper handling, storage and protection at their facilities.
- Prepare daily and weekly inspection reports, quality statistics reports and quality assessments for management review and necessary actions.

**Employer: Oriental Trading Co**

**Duration: Sept 2020 – June 2022**

**Project: Arcadian Commercial Plaza**

**Designation: QC Inspector Civil**

**Responsibilities:**

- Conducted regular site inspections to ensure civil works complied with approved drawings, project specifications, and applicable standards.

- Verified and monitored concrete pouring, formwork, reinforcement installation, and finishing works for compliance with quality control procedures.
- Coordinated with site engineers and construction teams to resolve quality-related issues and discrepancies.
- Prepared and maintained detailed inspection reports, quality records, and documentation for internal audits and client review.
- Ensured all materials used on-site were approved, properly stored, and met project quality standards.
- Participated in quality audits and facilitated third-party inspections when required.
- Reviewed method statements, ITPs (Inspection and Test Plans), and other quality-related documents for adequacy and compliance.
- Ensured timely closure of non-conformance reports (NCRs) and implementation of corrective and preventive actions.
- Monitored subcontractor work to ensure adherence to client requirements and contract specifications.
- Supported the QA/QC Manager in maintaining the Quality Management System (QMS) throughout the project lifecycle.

**Employer: Rana Umar Construction Company**

**Duration: August 2018 – August 2020**

**Project: Multiplex Commercial cum residential Project**

**Designation: Civil Site Supervisor**

**Responsibilities:**

- Supervised day-to-day civil construction activities including excavation, formwork, reinforcement placement, concreting, and finishing works to ensure timely project progress and quality standards.
- Coordinated with project engineers, subcontractors, and labor teams to ensure smooth execution of construction plans according to approved drawings and specifications.
- Conducted regular site inspections to monitor workmanship, material usage, and adherence to safety regulations and project quality standards.
- Reviewed and interpreted construction drawings, specifications, and contract documents to guide on-site teams and resolve technical issues.
- Monitored construction progress and reported daily site activities, delays, and challenges to project management for timely decision-making.

- Ensured compliance with all safety protocols and implemented corrective actions for any unsafe work practices on site.
- Managed manpower allocation and supervised subcontractors to optimize productivity and meet project deadlines.
- Coordinated delivery, storage, and usage of construction materials ensuring they meet quality requirements and minimizing wastage.
- Maintained accurate site records including work progress reports, inspection checklists, and material delivery logs.
- Assisted in the preparation of work schedules and coordinated with suppliers and vendors to ensure timely availability of resources.
- Liaised with clients, consultants, and local authorities for smooth project execution and regulatory compliance.
- Resolved on-site technical issues promptly to avoid construction delays and cost overruns.
