## About Me

Dedicated and detail-oriented Civil Surveyor with over **5 years of progressive experience** in infrastructure and construction projects across **Saudi Arabia and Pakistan**. Proficient in roadwork, sewerage, water pipeline layout, and topographical surveys using advanced instruments including **Total Station (Leica, Sokkia, Hi-Target) and GPS (Trimble, Sokkia GRX3, E800)**. Skilled in AutoCAD and project documentation, with a proven record of executing large-scale infrastructure developments. Adept at collaborating with consultants and ensuring accurate on-site implementation of engineering designs.

## WORK EXPERIENCE

May 2025 – Present

**Saudi Elaf Construction Company – Riyadh, Saudi Arabia**  
Surveyor

**Project:** Infrastructure and Utility Development (Various Sites)

- Responsible for roadwork including subgrade, sub-base, aggregate base course, and asphalt layers
- Executed excavation and layout for sewerage pipelines, water supply systems, and utility corridors
- Managed villa layout marking and alignment using Total Station and GPS

Sep 2024 – April 2025

**Al. Abraqi Contractors Company – Riyadh, Saudi Arabia**  
Surveyor

**Project:** Various infrastructure developments (Ongoing)

- Executing roadwork, earthwork, and mechanical piping operations
- Managing interlock and kerbstone layout
- Overseeing mechanical utilities installation with precision leveling and alignment

## WORK EXPERIENCE

---

May 2023 – Aug 2024

**National Blue Company (Engineers and Contractors) – Riyadh, Saudi Arabia**  
**Surveyor**

**Project:** Qiddiya Project (Riyadh, KSA)

- Performed road construction including subgrade, sub-base, and asphalt layers
- Surveyed and laid out sewerage and water supply pipelines
- Marked and staked villa layouts as per drawings using Total Station and GPS

Sep 2022 – Aug 2023

**Altaf Hussain & Sons (Engineers and Contractors) – Lahore, Pakistan**  
**Surveyor**

**Project:** Fazaia Housing Scheme Phase-II

- Conducted excavation and level-checking for road and sewage works
- Responsible for villa layout planning based on engineering drawings
- Supervised water supply pipeline alignments

Aug 2021 – Sep 2022

**Habib Rafiq (Pvt.) Ltd – Multan, Pakistan**  
**Surveyor**

**Project:** DHA Multan Sector G & N-XD Infrastructure

- Oversaw roadwork development and sewage pipeline excavation
- Ensured structural integrity by accurate leveling and survey control

Aug 2019 – Aug 2021

**Mian Babar Construction Company (SMC-Pvt.) Ltd – Lahore, Pakistan**  
**Assistant Surveyor**

**Project:** LDA City Infrastructure – Ferozepur Road

- Supported survey operations during road construction phases
- Handled initial groundwork and assisted with sewer layout execution

## KEY RESPONSIBILITIES

---

- Execution and supervision of drawings on-site
- Full control of site documentation and layout plans
- Site management and coordination with consultants and clients
- Setting out roadwork layers: backfilling, embankment, subgrade, base course, and asphalt

## TECHNICAL SKILLS

---

- **Survey Instruments:** Total Station (Leica 05/06/07, Sokkia, Hi-Target), Auto Level
- **GPS:** Trimble, E800, Sokkia GRX3
- **Software:** AutoCAD, Microsoft Office
- **Other Skills:** Site execution, leveling, layout marking, drawing interpretation
